

## OUR PLATFORM

To realize a sex-positive culture we need to:

### Change Our Education System

- teach sexual gradualism in schools
- provide parental education in sex-positivity
- teach the ethic of sexual tolerance
- establish a department of Sexual Studies at Canadian Universities
- create an Institute for the Advanced Study of Sexuality Policy

### Repeal Sex Negative Laws and Regulations

- pass legislation requiring more designated areas for nudists
- implement the recommendations of the Fraser Committee with respect to the repeal of laws prohibiting consensual, adult sex work in private
- fund a Sex Worker Empowerment Program (SWEP) providing counseling, education, advocacy, and resources to sex workers
- repeal the prohibitions on adult sexual expression which can only be observed by willing adults.

### Support Sex Positive Community

- require all long term care institutions to articulate a sexuality policy that is non-judgmental about residents ' sexuality and that aims to facilitate any desired activity among willing partners
- The Sex Party would create a Sex-Positive Press Council that would expose the overt and subtle censorship practiced by the media.
- The Sex Party would change Victoria Day to Eros Day to celebrate and encourage sex-positive expression. The Sex Party would proclaim Valentines Day as an official holiday.

## Test Your Sexual IQ

**Q1:** True or False  
Early vibrators were used by doctors to bring women to orgasm as a part of medical treatment.

**Q2:** The G-spot can be found: a) On the clitoris b) Inside the vagina c) On the cervix d) Nowhere, it's a myth.

**Q7:** A 2004 Cosmopolitan poll revealed what as a man's favorite sexual fantasy: a) Doing it in public b) Filming it c) Tying someone up d) Having a threesome.  
Answers on back

## Greetings from The Sex Party.

We are a new political party, the world's first registered party dedicated exclusively to sex-positive issues. We fielded three candidates in the May 2005 provincial election, and intend to run at the federal level.

We aim to develop a sex-positive culture, where sexuality is freely celebrated in art and media, where sexual education is encouraged throughout the lifespan, where sexual research is richly funded, and where the principles of liberty and tolerance govern the social regulation of sexual expression to the same extent as they govern the regulation of religious or political expression.

Our main fundraising and community-building vehicle is a social gathering we call **SexArtVoteYes! (SAVY)** celebrations where we display erotic art (like the images on this leaflet), do edge-pushing and explicit erotic performance art, hear erotic poets and comedians, and dialogue about sex and politics in our culture and personal lives.

*Intimate Embrace*  
by Mark Richfield

We need you. Help make society better and have fun doing it. If you are an **erotic artist or performer** we can showcase your art. We also need **volunteers**, skilled and general. Got extra cash and want to give it to a revolutionary cause? **Donate** to The Sex Party.

Our **website** is the nerve center of our organization. There you will find our federal and provincial platforms, our contact information, and much other valuable data.

### Test Your Sexual IQ: Answers

**Q1:** It's true. In the early 1800s, doctors would give female patients genital massages because they believed that sexual release helped treat emotional and mental problems. Doctors switched to electronic vibrators after they were invented.

**Q2:** The G-spot is an area of tissue located about two inches inside the vagina on the tummy side. This spot is made of erectile tissue like the tissue found on a woman's clitoris or a man's penis.

**Q3:** The answer is true. Medical tests have proven that the left testicle isn't as pert as the right testicle on most men.

**Q4:** The answer is one teaspoon to one tablespoon.

**Q5: False** Only 29 percent of women report that they always have orgasms when having sex with someone else. Quite the contrast to the 75 percent of men who say they reach orgasm every time. A funny fact is that 44 percent of men report that their women always have orgasms.

**Q6:** An average of 23 percent of seniors say they have sex every month.

**Q7:** The survey shows that almost half of men fantasize about having more than one woman in their beds. Twenty percent of men chose getting tied up or doing it in public as their fantasies.

# The Sex Party

## *Politics for a Sex-Positive Future*

*Primal Painting*, by Martin Guderna: This creation of this piece started a firestorm of controversy in 2003 and The Sex Party intends to fight the systems that almost made the production of this art impossible.
